**9. NARRATIVE / STATEMENTS** (If additional room is necessary, use Section 11 - Narrative / Statements Continuation)

On 06-15-2015 at approximately 1354 hours, Officers were dispatched to the intersection of North College Street and Washington Avenue in reference to a traffic crash.

Upon arrival I made contact with Darrell Gruver, the driver of Vehicle 1 (V1). He stated he was driving East on Washington Avenue. He said he was driving with a fertilizer spreading buggy in tow. He informed me he drove over a bridge and heard a loud sound from the buggy so he began to brake. He stated he saw the buggy come loose from behind the truck and begin to drift to the right hand side of the road. He stated as he slowed his vehicle, the buggy passed him on the passenger side of his vehicle. He said the buggy struck a utility pole and continued through a ditch until it came to a final rest near the large flower box.

I asked Mr. Gruver if he was injured and he stated he was not. I asked Mr. Gruver how fast he was driving before he lost control of the buggy. He said he was not sure specifically but he thought he was driving roughly 20MPH when he hit the bump that caused the buggy to dislodge. I asked Mr. Gruver if the buggy had some sort of secondary locking mechanism to keep the tongue attached to the hitch of the truck. He said there was a pin that went through the tongue and hitch and a locking pin to ensure it would not come loose. He said after he stopped he looked on the roadway and discovered the locking pin in the road.

I contacted Empire Electric and notified their dispatcher of the utility pole damage. I informed the dispatcher that there were wires in the roadway and the pole was blocking the road. She informed me the meter on the pole belonged to Missouri Gas Energy and they would be dispatched as well. I blocked the Washington Avenue in both lanes to prevent injury due to the downed lines.

The buggy was rented from MFA Incorporated. Jerry Butler, an employee from MFA came to inspect the buggy for damage or defects which could have caused it to come loose. He stated he believed there was too much play in the tongue on the pin. He brought a spacer to place on the pin which went through the tongue to prevent further incidents from occurring.

Mr. Gruver pulled the buggy out with his truck and it was driven from the scene. There was minimal damage to the buggy.

Empire Electric came to the scene and cut the lines from the utility pole. Missouri Gas Energy Employees removed the debris and the broken pole from the roadway.

I have nothing further to add at this time.
